

SynAtomy Cricothyrotomy Trainers

Adult Cric Trainer • Y-CRI-A-0005

Our SynAtomy Adult Surgical Cric Trainer is the world's most realistic surgical training platform for cricothyrotomy. In addition, it is compatible with nasogastric intubation and retrograde intubation (adult model only.) These models allow students to practice and repeat technique on a high quality, live-tissue replacement platform in a biohazard-free environment.

Repetitive use will strengthen the ability and confidence of all team members who perform or assist in implementing surgical airways. Typical students who may benefit from this trainer include emergency medical technicians, flight nurses, combat medics, ICU nurses and nurse practitioners. Anatomical features include oral cavity and nasal passages communicating with the lower airway, chin, clavicle, hyoid bone, thyroid cartilage, cricoid cartilage and cricoid membrane.

Relevant Skills: Surgical and needle cricothyrotomy, nasal intubation (adult model only), retrograde airway, palpation, cannulation, application and removal of sutures and staples, surgical cutdown and application of adhesives and bandages.

Included Components: Plastic base, muscular form, two membrane carriages with hyoid and cricoid, skin overlay, 20 replacement tissues and a durable Pelican Case.

Available Options: Choose skin tone and replacement tissue sets.

Equipment Compatibility: Surgical airway devices, autosuturing and autostapling devices, laser scalpels, electrocautery devices, bipolar and monopolar devices, harmonic blades and all known imaging equipment.

Pediatric Cric Trainer • Y-CRI-P-0005

Toddler Cric Trainer • Y-CRI-T-0005

Cric Replacement Tissues • R-CRI-A-0005

These tissue sets are used with the Adult Cric Trainer. Each set includes ten skin replacement tissues and ten cric membranes. Get the most out of your Cric Trainer with repetitive use, practicing technique and building confidence in implementing surgical airways.
